

Wine Club

The Food and Beverage Team strives to provide wines of quality for the enjoyment of our membership at reasonable prices. We also plan functions such as wine dinners, tastings and educational events to serve our members who enjoy and appreciate wine. We believe our pricing structure and careful selection provide quality products to our membership and very good values compared to those commercially available elsewhere in the area. The Wine Club affords all members the

opportunities to not only enhance their knowledge, awareness and enjoyment of wine but also to enjoy the company of friends and fellow members who are passionate about the subject. I am confident you will find value and enjoyment as a member of the BCC Wine Club and I look forward to seeing you at the many wine events the Club offers.

Sincerely,
Luciano Marques
F&B Director
